

D930 Earbud hearing aid OTC

Bluetooth, app, audio streaming, phone call

Engineered to optimize your hearing, enjoy the sound world. Users' expectations for hearing aids are constantly changing, and we need technology that can keep up. We have achieved the perfect combination of Bluetooth, hearing aids and audio streaming technology, and with our unique advanced algorithm capable of detecting and canceling wind and other disturbing noise, to give you better sound quality, clearer calls, music streaming, longer listening times, and more flexibility in when, where, and how you use it.

The tapered shape of the hearing aid allows us to provide an anatomically optimized fit that fits perfectly in the user's ear for maximum comfort and maximum wearing comfort.

With Wenatone's HA-FIT app, you will truly experience the joy of managing hearing aids at your fingertips.

Available colors: White, Balck

Hearing health, Enjoy life

At Wenatone, our product development is always based on audiology. We know that hearing loss is not just a matter of being unable to hear or hear clearly, it can also affect people's social and emotional, cognitive abilities and a range of other physical health problems. Wenatone envisions a world where everyone can enjoy listening and realize what they want in life.

OTC

Bluetooth,app,audio streaming, phone call

Modern style that suits you more than a earphone can get better for you hearing the world.

Connect to your world with bluetooth hearing aids and getting a natural sound experience fitted to your individual needs with Wenatone's HA-FIT app.

Bluetooth hearing aids open up a new world of audio for the hard of hearing. Hearing aids used to just help you hear everyday conversations—now they double as advanced wearable devices that can stream audio, make phone calls, and with Bluetooth-enabled hearing aids, you can now make calls without holding your phone to your ear— If you wear two hearing aids, you can hear conversations in both ears for a true hands-free universal Bluetooth connection. You can also stream multimedia audio from your phone, including video chats and popular apps, for more everyday enjoyment.

Deep language perception

Dynamic Noise Cancellation

AI intelligent panorama analysis

What is even more surprising is that this product adopts BLE-Bluetooth Low energy capability, which greatly optimizes the working time of the battery. It is also compatible with ISO and Android systems, and supports different user groups more efficiently, the user does not need to replace the mobile phone deliberately, which virtually saves the user a sum of money.

Discovery series

Bluetooth,app,audio streaming, phone call

Discovery RIC hearing aid makes your listening easier and reducing listening effort can also reduce fatigue, making you feel less tired at the end of the day. Imagine trying to focus on a conversation in a noisy place when you're tired; the effort can be exhausting. Discovery adopts a new self-developed core algorithm solution for hearing aids, and jointly optimizes the software and hardware of hearing aids. The sound processing mechanism has been optimized to achieve more targeted sound enhancement and more efficient feedback suppression. The hearing aids that fit you best sound so natural that you won't feel like you're wearing them.

At the same time combined with the use of HA-FIT APP and Bluetooth function,help you hear everyday conversations—now they double as advanced wearable devices that can stream audio, make phone calls.

R70 series

3-hour charge

25 huor power

R70 hearing aids feature traditional Receiver-in-canal (RIC) form factor, whereby the hearing aids sit comfortably and discreetly behind your ear.

The R70 adopts the most rigorous digital noise suppression technology and acoustic feedback suppression technology to provide users with a purer listening environment.

Convenient charging case. For on-the-go power, our R70 charging case holds 3 full charges before having to be plugged in, so simply place them on the charger each night, and they will be ready to go with you all day.
